

Danamark Appointed Distributor for Harmsco Filtration Products' Small Community and Municipality Water Filters

Danamark WaterCare is pleased to announce a new exclusive distribution agreement with Harmsco Filtration Products on the Hurricane Swing bolt product line for the small municipality water market, including water treatment facilities and other commercial applications.

“We are delighted to be working with Harmsco on this new initiative”, says Robin Howlings, President of Danamark WaterCare. “Our commitment to our clients is to provide cost effective, environmentally friendly solutions to today's WaterCare challenges. Harmsco's new focus on Small Community Water Systems achieves both of these objectives”.

Mike Dower, Director of Marketing and Sales, adds “We are extremely excited to be working with Danamark WaterCare and focusing our efforts into the small municipality water markets in Canada. Both Danamark WaterCare and Harmsco have developed dedicated teams to work with specifying engineers and designers to help solve some of the challenges faced by small municipality water systems.”

Harmsco Filtration Products is a leading manufacturer of cartridge filtration equipment, including stainless steel filter housings and replacement filter cartridges for turbidity reduction, sediment removal, taste and odour improvement, and Cryptosporidium/Giardia cyst removal.

In addition, Harmsco Filtration Products develops products with NSF listing for the appropriate standards to allow the promotion, specification, and sale of many of its products into community, municipal, and residential markets.

We have many different ideas and many different people throughout our organization. Yet we are one company, one team, with one care...Water.

Founded in 1975, Danamark is a 100% privately owned Canadian company specializing in innovative and cost effective WaterCare solutions.
