

The Robin S. Howlings Foundation “Big Day!” Sept. 14th, 2007

Please join us on Friday Sept. 14th as we give back to the community

On the anniversary of the passing of our founder, Robin S. Howlings, **10%** of the net value of every order placed with us by our valued clients will be set aside towards the donation of drinking water systems to various charitable organizations across Canada.

Our passion is to be proactive in providing environmentally responsible solutions for WaterCare needs because all Canadians deserve access to clean water regardless of their social structure or income.

We are committed to a long term programme for giving back to the community and helping those in need.

Your business on this special day will help make a difference.

Thank you so much for your support.

Yours truly,

C. Robin Howlings
President
Danamark WaterCare
